Art Unit: 1642

1. The response to the restriction requirement and the amendment to the claims, filed September 26, 2002 is acknowledged.

Claims 108-132 are pending.

The previous restriction requirement is withdrawn. A new restriction requirement is set forth below.

Election/Restrictions

2. Restriction to one of the following inventions is required under 35 U.S.C. 121:
 - I. Claims 108-115, drawn to humanized antibodies that comprise at least 3 amino acids from the donor immunoglobulin heavy chain framework, classified in class 530, subclass 387.3.
 - II. Claims 116-132, drawn to humanized antibodies that comprise acceptor immunoglobulin framework that is a consensus framework from many human sequences, and drawn to methods of making humanized antibodies that comprise acceptor immunoglobulin framework that is a consensus framework from many human sequences, classified in class 530, subclass 387.3.

3. The inventions are distinct, each from the other, for the following reasons:

Groups I and II are independent and distinct inventions, because they are drawn to products that are structurally independent and distinct, which products also have different methods of making, and would therefore require different searches and considerations.

Art Unit: 1642

Furthermore, the method claims of group II are not related to the product claims of group I, because the method claims do not result in the production of the antibodies of group I.

4. Because these inventions are distinct for the reasons given above and the search required for Group I is not required for Group II, restriction for examination purposes as indicated is proper.

5. Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

6. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
